## *Thoughts from the Chairperson*

### *Chairman's Message:*

It was wonderful to see so many members attending our annual Kickoff and Membership Party this year, thank you for attending. This year it was held at a new location in Bartlett, Pasta Mia. Thank you, Mike Piecyk, for recommending this new location. The staff at Pasta Mia was very accommodating with our needs and the pizza and appetizers were delicious! Definitely a wonderful place to add to our venue.

I would also like to thank Jim Anderson for the use of his new building in Marengo, to host our Judging School held on March 9. What a great turnout. Thank you, Terry McManmon, for presenting your C1-C4 Corvette Preservation to the group. I heard the question and answers were a highlight to the day. Expertise from our core members always makes a great presentation. Terry's knowledge over the years is imperative to the Corvette hobby. Thank you, Terry!

Up next is our Judging School held at Melrose T-Tops, in Cortland, IL on April 21, 2024. Please reserve the date as I am sure you will not want to miss this. The flyer is on page 19 – check it out! As always, please reference our website for dates and event information.

Next is our annual Chapter Event, held again this year at Driscoll Motors in Pontiac, IL. The date is May 17-18. This is our third year in Pontiac. So, if you missed it, please put it on your calendar. Pontiac offers many historic sites not to mention the downtown cruise night held on Saturday evenings. This is a sight to see, so many vintage cars! Please register on NCRS.org soon, as we are filling up quickly. Flyer page 18 – road tour and judging school Friday, judging Friday and Saturday – hope to see you there!

Many thanks to all the members and directors who made our Chapter exist and make our activities possible. It is teamwork and friendship that make us successful!

I look forward to some nice weather and seeing all of you again!

# *ILNCRS Technical Session*

*February 3<sup>rd</sup>*

## *Paint Correction*

## History

- 1920's – DuPont introduces Duco nitrocellulose lacquer – drying time cut to a couple hours – Ford introduced a brown Model A
- 1930's – Acrylic lacquer – increased gloss / no buffing of the final layer
- 1950's - thermoplastic acrylic lacquers
- 1970's – E coat – electrostatic primer - black
- 1970's – Enamel (hardener introduced) 2k
- 1980's – Base coat clear coat

## Proper washing and maintenance

- Rinse wheels and wheel wells
  - Apply wheel cleaner - quality
  - Wash (with a separate microfiber wash mitt)
  - Rinse
- Rinse from the top of the vehicle down
- Washing
  - Use a Ph. balanced car soap - quality
  - Use the 2 bucket method !
  - Wash – start at the top and work down
  - Rinse mitt after every panel

## Paint Protection

- Ceramic Coatings
  - Offers unmatched durability and resistance for years and has a melting point of 1200 degrees.
  - Provides a glass like hydrophobic finish that will add thickness (3-15 microns) to the surface.
  - Requires a professional application with long lasting results.
- Paint Protection Film
  - PPF is a thermoplastic urethane that often offers self-healing capabilities.
  - PPF is the most substantial paint protection available. PPF is 8 mils thick (208 microns).
  - Installation is extremely difficult and requires a train professional.
  - PPF has up to a 10 year longevity.

## Proper washing and maintenance

- Rinse from the top down
- Use a blow dryer to air dry
- Towel dry weeping areas – microfiber
- Dry door jams - microfiber
- Dry wheels
- \* Do NOT Wash in the direct sun/hot surface.
- \* Do NOT apply coatings in the direct sun/hot surface.

\*Cost will vary depending on size and condition of vehicle.

\*\*Ceramic Coating may be upgraded to another ceramic option at additional cost

**Why a Ceramic Coating and/or PPF?**

Your vehicle is your 2<sup>nd</sup> biggest investment. Protecting it, and maintaining it, will be a priority.

Ceramic Coatings and PPF will not only help to keep your vehicle cleaner for longer, it also features impressive protection and surface enhancement qualities such as: extreme gloss, outstanding UV resistance, robust chemical protection, rock-chip resistance (PPF), and long-lasting durability.

Ceramic Coatings and PPF help protect almost every inch of your vehicle. Choose from additional options, such as:

- \*Windshield/All Windows
- \*Outer Wheels/Wheels & Barrels/ Wheels, Barrels & Calipers
- \*Interior Protection (for your fabrics, leather, vinyl, hard & soft plastic surfaces)

**We also offer UNDERCOATING services to protect your undercarriage.**

# **General Topics and Changes to NCRS Standard Deductions**

## **GENERAL TOPICS**

- Models presented with non-OEM side pipes will be judged during Operations Check. However, models presented with non-OEM side pipes will not be eligible for PV, due to the horsepower enhancement.
- Cylinder Heads are to be judged using CDCIF unless the heads presented are deemed significantly dissimilar due to their inconsistency with the car's HP rating.

## **CHANGES TO STANDARD DEDUCTIONS**

**Body Color (Item 10)** — The 50% deduction for metallic paint is eliminated, and metallic paint will now be covered under the 20% deduction:

- **Deduct 20% of Originality:** Color corresponds to the factory installed body trim plate or label code, if applicable. However, the color shade and/or metallic content/size is not consistent with factory production.

**Altered Cars: Horsepower/Color Interior (Item 7)** — Under the 50% deduction, replace the word *Fabric* with the word *Material*.

I no longer have a C4 so I am offering:

1 set of Goodyear GSC tires. Good tread, Fred Flintstone hard so they are for judging only, one has a plug and patch.

C4 car covers for a convertible one heavy fabric, one parachute silk weight.

1 original (I am told) AC Delco air filter for 1992 LT1. Pretty clean.

I have no idea what any of this is worth but I want to get it to someone who can use it.
